

1

The idea for the Nature Walk came from the children's interest in animals. What are your children interested in? How could you extend on those interests?

2

The National Quality Standard 3 is about the physical environment and making indoor and outdoor spaces designed and organized to engage children in quality experiences. What are some ways you could use your outdoor space to build on something the children are learning about?

3

The Nature Walk really gets the children using their imagination. Is this something you do? How could you do it more?

4

Going on the Nature Walk together, the children are learning as a community. What do you do to encourage a sense of community with your children? What more could you do?
